

Search Help

By default, all trays are initially displayed for each 3-year selection.

The trays that appear for each year have been judged First, Second, Third, or Merit.

Division VIII Educational Trays have not been judged, but are included for educational purposes.

Selections may be narrowed by selecting a year, **or** NBS division. A recent change allows the selection of a year **AND** NBS division. To deselect the year and/or the NBS division click a second time.

Text may also be entered in the “Search Images” section.

Example 1: You want to see all the Div. I first place trays in 2023.

Select “2023”, select “Div. I”, type “first” in the Search Images section.

You may also enter a space and second word or name in the Search Images section. The search function will search for the first word AND the second word. IE “glass horn” will display all trays with the word glass or horn in the title.

Example 2: You want to search the entire 3-year selection for “Cats” Select “All”, you type “Cat” This search may result in undesired results as any word that contains the letters “cat” in sequence will be shown IE “educational.”

When viewing trays:

Click inside the tray to enlarge the image. Then hold the mouse button down to pan. A second click inside the tray will reduce the image size.

Click on the left or right arrow to view either the previous or next tray.

Note: Ohio button competitors are divided in two groups by competitor experience.

Regular competitors have received at least 5 Blue Ribbons.

Novice competitors have received less than 5 Blue Ribbons.

Usually for each award there will be 2 award numbers, I.E. 10R (regular) & 10N (novice). These are judged separately. Occasionally, the award will read 10 R/N judged together. In that case, novice and regular competitors are judged together.
